**Academic Appointments***Vanderbilt University*

2015 – Present	Associate Dean, College of Arts & Science
2018 – Present	Principal Senior Lecturer, Department of Earth & Environmental Sciences
2018 – 2020	Faculty Head of Memorial House, the Martha Rivers Ingram Commons
2016 – Present	Affiliated Faculty, Communication of Science and Technology
2009 – 2018	Senior Lecturer, Department of Earth & Environmental Sciences

*University of Washington*

2007	Instructor, Program on the Environment
2003 – 2009	Graduate Student Research and Teaching Assistant, Department of Earth and Space Sciences

**Education**

Ph.D. University of Washington, Seattle (Geological Sciences), 2009  
Supervised by Dr. Jaakko Putkonen, Dr. John Stone, and Dr. Eric Steig  
Dissertation: "Stability of unconsolidated deposits in the McMurdo Dry Valleys, Antarctica"  
Environmental Management Graduate Certificate, 2008

B.A. Pomona College (Geology and Mathematics), 2002

**Research and Teaching Interests**

Surface processes, landscape evolution, glacial geology, age of landforms, rate of geomorphic processes, exposure dating, cosmogenic nuclides, lichenometry, detrital zircon geochronology, structural geology, tectonic geomorphology, life cycle assessments, sustainable use of natural resources, role of science in environmental decision making, environmentalism in the 21<sup>st</sup> century

**Honors and Recognition**

2021: COVID-19 Innovative Teaching Award, College of Arts & Science, Vanderbilt University  
2019: Greenest Group on Campus – Morgan lab, Sustainability and Environmental Management Office, Vanderbilt University  
2015: Chancellor Heard Greek Awards Faculty Member of the Year, Vanderbilt University  
2014-15: Junior Faculty Teaching Fellow, Center for Teaching, Vanderbilt University  
2014: Ernest A. Jones Faculty Advisor Award, College of Arts and Science, Vanderbilt University

2008: Howard Coombs Fellowship for Excellence in Teaching, Department of Earth and Space Sciences, University of Washington

2006: Richard E. Fuller Fellowship for Research, Department of Earth and Space Sciences, University of Washington

2002: Mason L. Hill Award, Department of Geology, Pomona College

2002: Don Zenger Award, Department of Geology, Pomona College

---

### **Current and Recent Support**

#### *Current:*

PI: "Unlocking the glacial history of the McMurdo Dry Valleys, Antarctica by fingerprinting glacial tills with detrital zircon U-Pb age populations" Source of Support: NSF, Award Number: 1842542. Total Award Amount: \$492,968. Total Award Period Covered: 07/01/2019 – 06/30/2024.

Co-PI: "Collaborative Research: Long Term Sublimation and Preservation of Two Separate, Buried Glacier Ice masses, Ong Valley, Southern Transantarctic Mountains." Source of Support: NSF, Award Number: 1445169. Total Award Amount: \$100,227 VU award (\$465,351 total award), Total Award Period Covered: 11/1/2016 – 10/31/2022. Co-PIs Jaakko Putkonen (UND) and Greg Balco (BGC).

#### *Recent:*

Co-PI: "Collaborative Research: Clarifying the Ingredients and Significance of Nonlocal Versus Local Sediment Transport on Steepland Hillslopes." Source of Support: NSF, Award Number: 1420898. Total Award Amount: \$173,374 VU award (\$307,932 total award). Total Award Period Covered: 8/1/2014 – 7/31/2018. Co-PIs David Furbish (VU) and Josh Roering (U. of Oregon).

PI: Scientific Committee on Antarctic Research, Travel Grant, October 2017. \$750 to attend the Antarctic Permafrost and Soils (ANTPAS) Workshop at Insubria University, Italy.

PI: Undergraduate Research Supervision Grant. Source of Support: Vanderbilt University. Total Award Amount: \$2,000. Total Award Period Covered: June 1, 2015 – June 31, 2016. In conjunction with undergraduate student receiving a \$5,000 Vanderbilt University Summer Research Program award.

Research Personnel for Vanderbilt University Discovery Grant, "A Negotiated Settlement: An Interdisciplinary Investigation of a Planned Colonial Town in the Andean Highlands of Peru." Source of Support: Vanderbilt University, Total Award Amount: \$99,948, Total Award Period Covered: 5/2010 – 12/2012.

Research Personnel for NSF #0838968, "Collaborative Research: Systematic Analysis of Landscape Evolution and Surface Ages in Transantarctic Mountains." Source of Support: NSF, No award to DM (\$366,712 total award). Total Award Period Covered: 9/1/2009 – 8/31/2012. Co-PIs Jaakko Putkonen (UND) and Greg Balco (BGC).

**Morgan, D.J.,** J. Putkonen, and G. Balco (2017). Bedrock and till erosion rates in the Central Transantarctic Mountains determined with cosmogenic Ne-21. *1<sup>st</sup> Antarctica Permafrost and Soils Workshop*, Varese, Italy, 4-5 October, 2017.

---

## Students Supervised

### *Undergraduate students at Vanderbilt University*

#### Honors Senior Thesis students

Courtney Megerian, '22: Provenance of glacial tills in Cape Cod, MA  
Ellie Miller, '22: Provenance of the Sirius Group tills, Antarctica  
Emma Rimmer, '20: Exposure age of glacial moraines in Antarctica  
Andrew Grant, '19: Aerosols in Antarctica soils  
Julia Grabowski, '17: Geology of bald mountains, TN and NC  
Sarah Sams, '16: Exposure age of glacial tills from Antarctica and California  
Katherine Edwards, '15: Provenance of glacial tills, Antarctica  
Kyle Broach, '12: Bioturbation rates under sea ice, Explorer's Cove, Antarctica  
Catherine Grady, '12: Degradation of glacial moraines in the Sierra Nevada, CA

#### Summer Undergraduate Research Projects

2021: Courtney Megerian, Ellie Miller, Sophia Wang  
2020: Courtney Megerian, Ellie Miller, Sophia Wang  
2019: Maya Sandel (Italy field work), Emma Rimmer, Lucia Berkey (HS student)  
2018: Andrew Grant, Alyssa Rae Larrinaga, Vik Reddy, Ruby Kinkel (HS Student)  
2017: Evan Miranda (NY field work)  
2016: Alison Cribb, Evan Miranda  
2015: Julia Liu, Sarah Sams (CA field work), Tim Watkins (CA field work)  
2014: Katherine Edwards  
2012: Courtney van Stolk (Peru field work)  
2011: Catherine Grady (CA field work)  
2010: Rebecca McCracken (Peru field work)

#### Independent and Directed Study (separate from honors senior thesis students)

Courtney Megerian, spring 2020 – current: Glacial till provenance, Antarctica  
Ellie Miller, spring 2020 – current: Glacial till provenance, Antarctica  
Sophia Wang, spring 2020 – current: Glacial till provenance, Antarctica  
Maya Sandel, fall 2019 – spring 2020: Cosmogenic nuclide sample preparation and analysis  
Evan Miranda, fall 2015 – spring 2018: Zircon U-Pb ages of zircon in glacial tills  
Katherine Norskog, fall 2014 – spring 2015: Quartz microtextures on SEM  
Carson Hedberg, fall 2013 – fall 2014: Cosmogenic nuclide sample preparation and analysis  
Ashley Ball, spring 2013: Cosmogenic nuclide sample preparation and analysis  
Kyle Ringger, spring 2013: Cosmogenic nuclide sample preparation and analysis  
Ziquan Fan, spring 2012: Life cycle assessment of smartphones  
Michael Diamond, fall 2011 – spring 2012: Glacial geology, cosmogenic nuclide analysis  
Rebecca McCracken, spring 2011: Lichenometry from archeological sites in Peru  
Mitchell Stocky, spring 2011: Cosmogenic nuclide sample preparation and analysis

*High School students supervised through the [School for Science and Math at Vanderbilt](#)*

Gwen Johnson, spring 2022 – fall 2022: Detrital zircon provenance project

Lucia Berkey, spring 2019 – fall 2019: Detrital zircon provenance project

Ruby Kinkel, spring 2018 – fall 2018: Detrital zircon provenance project

*Graduate students*

Alessandro Longhi (Insubria University, PhD 2021) – Committee Member, visiting student intern in lab 8/2018-3/2019

Jessica Raff (Vanderbilt University, MS 2019) – Committee member

Megan Patrick (Vanderbilt University, MS 2016) – Committee member

Manuel Martinez (Vanderbilt University, MS 2015) – Committee member

Tyler Doane (Vanderbilt University, MS 2014) – Committee member

Siobhan Fathel (Vanderbilt University, MS 2013) – Committee member

Lauren Williams (Vanderbilt University, MS 2013) – Committee member

Allison Rothgeb (University of Delaware, MS 2012) – Reader

---

**Courses Taught**

*Vanderbilt University (Courses were renumbered to a 4-digit system in 2015, old numbers in parentheses)*

ENVS/EES 1001 (099) Antarctic Exploration, the Nature of Virtue, and the Search for Heroism in Modern Life, spring 2014, 2015, 2016: 1 credit-hour seminar for first-year students.

EES 1001 The Environment and Environmentalism at Vanderbilt, 2018 – current: - seminar for first-year students, co-taught with head of Plant Operations Mark Petty.

EES 1111 Antarctic Exploration, the Nature of Virtue, and the Search for Heroism in Modern Life, spring 2018: writing seminar for first-year students.

EES 1510 (101) Dynamic Earth: Introduction to Geological Sciences, one semester each year, 2009 – 2015: ~120 students.

EES 1510L (111) Dynamic Earth Lab, fall 2009 – spring 2012, 18-20 students per lab section, 4-6 lab sections each semester.

EES 1030L (113) Oceanography Lab, fall 2009 – spring 2015, 18-20 students per lab section, 3-6 lab sections each semester.

EES 2580 Earth System Dynamics, spring 2019 - 2020 new required course blending math modeling and computer coding for EES majors, 15-20 students.

EES 3340 (240) Structural Geology, once each academic year, 2009 – 2016, 2020.

EES 3865 (210) Field Investigations, May 2013, 2015, 2017 – “Maymester” course in New Zealand, 10-20 students.

EES 4440 Glacial Geology, new course, fall 2021.

EES 4961 (299) Senior Seminar, spring 2015 – 2017.

Vanderbilt Visions, fall 2010 – 2020: mentor for first-year undergraduate students.

*Osher Lifelong Learning Institute at Vanderbilt*

Spring 2021: “The history of exploration in Antarctica”

Spring 2017: “The past, present, and future of the Antarctic ice sheets”

Fall 2014: “Exploring Antarctica”

*University of Washington*

Instructor, Program on the Environment

ENVIR 100 Environmental Studies 100: Interdisciplinary Foundations, spring 2007, co-taught with economics professor Yoram Bauman.

Teaching Assistant, Department of Earth and Space Sciences

ESS 101 Introduction to Geological Sciences, 2003-04 (3 quarters), winter 2008

ESS 209 Geomorphological Expedition to Nepal (3-week field course in Nepal), September 2007

ESS 210 Physical Geology, spring 2005

ESS 211 Physical Processes of the Earth, fall 2006

ESS 304 Volcanoes and Glaciers of the Pacific Northwest, summer 2004

ESS 400 Field Geology (6-week field course in SW Montana), summer 2007 and 2008

ESS 426 Fluvial Geomorphology, spring 2008

---

## Administrative Roles and Responsibilities

### *Responsibilities for the College of Arts and Science as Associate Dean*

Faculty Director for Immersion (2018 – current): develop guidelines and processes for students completing immersion projects, supervise 16 faculty immersion coordinators, advise faculty and students on immersion projects.

Director, [College Scholars Honors Program](#) (2015 – current): review applications and admit students, develop and select Honors Seminars for curriculum, supervise student enrichment research projects, plan social and professional development activities, coordinate alumni network, advise 240 students in the program.

Director, Departmental Honors Programs (2015 – current): supervise honors senior thesis program for departments and programs.

Director, Merit Scholarship Programs (2015 – current): oversee [Cornelius Vanderbilt, Chancellor's](#), and other merit scholarship programs. Advise ~200 students. Supervise, renew, and steward over \$10,000,000 in tuition scholarships annually. Award and administer over \$200,000 in summer stipends for experiential enrichment projects. Coordinate alumni network.

Director of Internships (2020 – current): advise, review, and supervise student's conducting internships for credit.

Admissions Committee, Chair (2015 – current): review and select merit-based Honors scholarships during admissions process, recruit approx. 25 scholarship students to Vanderbilt each year.

Athletics Committee, Chair (2015 - current): review applications to Vanderbilt from student-athletes, liaison to Athletics, assist with recruiting athletes to Vanderbilt.

Study Abroad Committee, Chair (2018 – current): review proposals for new study abroad programs, develop new abroad initiatives.

Committee on Educational Programs (2017 – current): review proposals for changes to majors and minors.

Ad Hoc Immersion Committee, Chair (2016 – 2017): design A&S curriculum for experiential learning graduation requirement, shepherd through faculty governance in 2016-17.

Liaison to the Office of Undergraduate Admissions and Athletics Department.

### *Responsibilities for Vanderbilt University as Associate Dean*

[Immersion Faculty Steering Committee](#), Office of the Provost (2015 – current): A&S representative on committee to define and design experiential learning requirement for all undergraduates, launched fall 2018.

Officer Education Committee, Office of the Provost (2015 – current): oversight of campus ROTC programs.

Appellate Review Board, Officer (2016 – 2021): review appeals of sexual misconduct cases.

Committee on Teacher Education (2015-2018): advise board for Peabody College on education major, goals, teacher training.

QEP Committee, Office of the Provost (2015 – 2016): review, select, and implement a curricular innovation as the [Quality Enhancement Plan \(QEP\)](#) for the 10 year review of Vanderbilt's accreditation by SACSCOC, focus on immersion opportunities.

Faculty Advisory Committee for International Education, Office of the Provost (2015 – 2016): review study abroad options for students, define immersion criteria for study abroad.

---

## Service

### *Vanderbilt (separate from roles and responsibilities as associate dean)*

Environmental and Sustainability Studies Advisory Committee, College of Arts & Science (2014 – current): develop new minor in Environmental and Sustainability Studies and major in Climate Studies.

Member of the Cumberland Project (2011 – current): Vanderbilt University's initiative to develop curriculum on environmental studies and sustainability.

Faculty sponsor for student organizations

Community Garden (2018 – current)

Bridge Club (2017 – current)

Geology Club (2009 – 2017)

Faculty interviewer for Vanderbilt Visions and VUcept (spring 2011 – current): Review and interview students to be peer mentors.

MOSAIC Multicultural Recruitment weekend, Office of Undergraduate Admissions (spring 2010 – current): Faculty lecturer and discussion leader for multicultural recruitment weekend.

Director of Undergraduate Studies, Department of Earth and Environmental Sciences (2012 – 2015): Advise all undergraduate majors and minors, course scheduling, curriculum revision, develop guidelines for senior honors thesis projects, teaching assistants, and research assistants, review scholarship applications.

Committee on Educational Programs, College of Arts & Science (2014 – 2015): review proposals for new academic programs, program changes.

Vanderbilt Commons review committee, Dean of the Commons (2014): develop curriculum goals for first-year student living-learning community.

Vanderbilt Visions review committee, Dean of the Commons (2012-2013): review Vanderbilt Visions and VUcept programming.

Faculty adviser for Mayfield Living and Learning Community (2012-13, 2014-15, 2018-19, 2019-20): advise a student themed service housing group, 10 students.

### *University of Washington*

Graduate Student Representative, Department of Earth and Space Sciences, 2008-09.

Graduate Student Representative, Advisory Board for the Program on the Environment, 2007-09, and Steering Committee for the Environmental Management Certificate Program, 2006-09, Supervise undergraduate major in environmental studies and graduate certificate programs.

### *Community*

2021 – Current: Geological Society of America RISE Liaison. RISE: Respectful Inclusive Scientific Events.

2021 – Current: Scientific Committee on Antarctic Research Equality, Diversity and Inclusion Leadership Group.

2019 – 2022: Research Grants Committee as a Member-at-Large (Quaternary Geology & Geomorphology), Geological Society of America.

Ongoing: Grant reviewer and panel reviewer for the National Science Foundation.

Ongoing: Peer-reviewer for: *Geology*, *Nature*, *Global Planetary Change*, *Earth and Planetary Science Letters*, *Permafrost and Periglacial Processes*, *SOIL*.

---

### **Workshops and Professional Development**

“Vanderbilt Leadership Enrichment” 2021-22. Vanderbilt Leadership Enrichment (VLE) is a University-wide, yearlong program designed to develop key leadership skills and competencies. The program aims to help participants enhance their leadership self-awareness and increase their institutional knowledge.

“Interdisciplinary Antarctic Earth Science Conference,” and “2019 Antarctic Deep Field Camp Planning Workshop,” October 13-16, 2019, Julian, CA. A forum to present and discuss results of Antarctic research, develop interdisciplinary projects, and identify key scientific research topics that will help determine the highest priority sites for the next potential multidisciplinary US Antarctic deep field camp.

“Teaching Computational Thinking Skills with MATLAB,” October 20-22, 2019, Carleton College, Northfield, MN. This workshop brought together faculty in Geoscience, Physics, Math, Biology, Engineering, and beyond who teach computation in their courses and are interested in strengthening and developing their teaching skills and MATLAB based materials. Sponsored by the National Association of Geoscience Teachers and the Science Education Resource Center at Carleton College.

“The Business of VU” Fall 2018. A semester-long course designed for the Vanderbilt community to learn about the business operations of the university and the higher education landscape.

“Interdisciplinary Antarctic Earth Sciences Meeting,” September 20-22, 2015, Loveland, CO. This meeting brings together the broader earth science community to build collaborations, share resources, and develop new research ideas in the Transantarctic Mountains.

“Transantarctic Mountains Science Meeting,” September 23-24, 2013, University of Minnesota. This meeting brings together the broader scientific community to build multidisciplinary collaborations in the Transantarctic Mountains.

“Teaching Oceanography,” June 18-20, 2013, City College of San Francisco. This workshop is part of the On the Cutting Edge professional development program for current and future geoscience faculty.

“Engineering, Sustainability, and the Geosciences,” Colorado School of Mines, March 6-8, 2013. This workshop is part of the InTeGrate project for interdisciplinary teaching of geoscience for a sustainable future.

“Early Career Geoscience Faculty: Teaching, Research, and Managing Your Career,” June 12-17, 2011, College of William and Mary, Williamsburg, VA. This workshop is part of the On the Cutting Edge professional development program for current and future geoscience faculty.

“Preparing for an Academic Career in the Geosciences: Workshop for Graduate Students and Post-Doctoral Fellows,” July 31-August 3, 2008, National Weather Center, University of Oklahoma. This

workshop is part of the On the Cutting Edge professional development program for current and future geoscience faculty.

---

### **Public Talks, Invited Seminar Lectures and Outreach Presentations**

- "Introduction to Antarctica" Harpeth Valley Elementary School – Ms. Koons's and all 3<sup>rd</sup> grade classes, May 13, 2019.
- "Introduction to Antarctica" Eakin Elementary School, Ms. Jackson's 4<sup>th</sup> grade class, Ms. Rudisill's 2<sup>nd</sup> grade class, Mr. Seay's 1<sup>st</sup> grade class, May 3, 2019.
- "Research and life in Antarctica" Eakin Elementary School, Ms. Jackson's 4<sup>th</sup> grade class visit, March 5, 2018.
- "Research and Life in Antarctica" Carter-Lawrence Elementary School, 2<sup>nd</sup> grade class visit, November 14, 2017.
- "Research and climate change in Antarctica" Eakin Elementary School, Ms. Jackson's 4<sup>th</sup> grade class visit, November 13, 2017.
- "The past, present, and future of the Antarctic ice sheets" Vanderbilt Green Forum, February 22, 2017.
- "The past, present, and future of the Antarctic ice sheets" Osher Lifelong Learning Institute, January 24, 2017.
- "The Multi-million year glacial history of the Transantarctic Mountains, Antarctica" Appalachian State University, September 9, 2016.
- "The Multi-million year glacial history of Ong Valley, Antarctica" Middle Tennessee State University, April 20, 2016.
- "[GMA' Flies Drone into Icelandic Sinkhole](#)" Good Morning America guest scientist, January 6, 2016.
- "Governing the Commons: the Antarctic Treaty and the South China Sea" McGill Hour Dialogue Series, McGill Hall, Vanderbilt University, November 5, 2015.
- "Exploring Antarctica" Williamson County Public Library, October 9, 2015.
- "Contrary landscapes: Age and activity of landforms in Antarctic Dry Valleys" University of Pennsylvania, Department of Earth and Environmental Science, department seminar January 31, 2014.
- "Principles of Hydraulic Fracturing" Vanderbilt University, SPEAR club, October 7, 2013.
- "Research and Life in Antarctica" Vanderbilt multicultural recruitment weekend (MOSAIC) March 2010, 2011, 2012, 2013, 2014.
- "Geology of Tennessee" Vanderbilt University, Wilskills Outdoor Club, October 24, 2012.
- "Geomorphology of Antarctica" University of North Dakota, Department of Geology and Geological Engineering, department seminar, June 22, 2011.
- "Why are rivers fun to paddle?" Vanderbilt University, Wilskills Outdoor Club, February 2010.
- "How will Antarctica react to future climate change?" Vanderbilt University, Students Promoting Environmental Awareness and Recycling (SPEAR), November 2009.
- "Reconstruction of Former Glaciers" University of Washington, ESS 431: Principles of Glaciology, fall 2007, fall 2008.
- "Petroleum Geology" University of Washington, ENVIR 100: Interdisciplinary Foundations, fall 2007, winter 2008, fall 2008, winter 2009.
- "Introduction to Life Cycle Assessment" University of Washington, URBDP 520: Quantitative Methods in Urban Design and Planning, fall 2007.
- "Petroleum Geology of the Arctic National Wildlife Refuge" University of Washington, Program on the Environment, ENVIR 450: Choices and Change in the Arctic National Wildlife Refuge, summer 2005, summer 2006.

“Geology of Auckland, New Zealand” University of Washington, Program on the Environment and UW Tacoma Urban Studies, ENVIR 400: Comparative Perspectives on Cities & the Environment: Seattle, WA, Auckland, New Zealand, and Sydney, Australia, January 2006.

“Antarctica: Life and Research at the Bottom of the Earth” Dina Pigott’s 2<sup>nd</sup> grade class, Epiphany School, Seattle, WA, February 2006.

“Field Work and Camp Life in Antarctica” Yakama Tribal School, Toppenish, WA, May 2005.
